Eager to apply my technical skills, learn from industry professionals, and grow as a web developer.

PROJECTS

- **Amazon Clone**

This project is a simplified clone of the Amazon website, built using HTML and CSS. It features a homepage with a navigation bar, product listings, and a footer. The design is responsive, ensuring a seamless user experience across different devices. Key elements include product cards with images, titles, prices, and "Add to Cart" buttons, mimicking the look and feel of the original Amazon site.
